RESUME

I'm a computer systems engineer, self-taught and constantly learning, passionate about new technologies. I have worked in multicultural companies using react, express, scrum and redux for 4 years.

SKILLS

React| Typescript | Redux.	Javascript | HTML5 | CSS3 | SASS.
Nodejs | Express | MongoDB | MySQL.	Scrum | AWS | Git | Github | GitLab.
React Hook Form | useContext | Axios.	Styled Components | Bootstrap | Tailwind.
React Testing Library | Jest | Cypress.	Server Side Rendering | Next Js | webpack.

EXPERIENCE

AgileThought | may 2022 - Present
Cigna Group - Full Stack Developer
- Provide services to a client in the United States in health insurance industry, I have extensive knowledge of React and Nodejs, including component-based development, MVC, state management, props, params, lifecycle methods, hooks (such as useState, useEffect, useContext), and functional components.
- Implemented state management using Redux, effectively managing complex application states and enabling efficient data flow between components.
- Conducted code reviews and provided feedback to ensure adherence to best practices and maintainable codebase.
- Utilized React Router DOM for client-side routing, enabling dynamic navigation and improving overall application performance.
- Integrated with RESTful APIs to fetch and update data, utilizing libraries like Axios or Fetch to handle asynchronous data operations.

Tata Consultancy Services | september 2020 - may 2022
USAA Bank - React Developer
- I was responsible for developing customer requirements for a client in the financial services industry, creating new features, fixing bugs and unit testing application components (React, useContext, Cypress).
- Create new features and components, also optimize legacy code, keeping in mind the new standards in the software industry.

Walmart - Front End Developer
- Developed and maintained for a client in the United States in the retail industry using React components for the Spanish version of the application, focusing on UI/UX consistency and language accuracy (React, Redux, Enzyme).
- Collaborated with cross-functional teams to implement internationalization features, allowing for easy adaptation of the application to various languages.

SOFT SKILLS

- Communication Skills.	- Teamwork.
- Problem-solving.	- Empathy.
- Attention to detail.	- Continuous Learning.
- Critical thinking.	- Good practices.

EDUCATION

Computer Systems Engineer	Tecnológico Nacional de México.
